

# Octoquadri

By The Book Wyrn

## About the pack

Octoquadri were originally invented by AnalyticalNinja. Basically, they are an even more extreme version of a 4x4 mean mini. They use 8 digits from 1-9 and exactly two copies of each with no repeats in rows, columns, or 2x2 boxes. The original octoquadri puzzles can be found [here](#).

I found the idea of Octoquadri intriguing, as it allowed for a lot of complex and interesting logic within a small grid, including some kinds of logic that aren't usually found in sudoku.

So, I decided to set some of them on my own. Over the course of a few months, I ended up creating quite a few, and so I have collected them all together to be released as one pack.

I have ordered the puzzles roughly in difficulty order, as best as I can estimate them. The puzzle are mostly between 1-3.5/5\* difficulty, with around 2\* being average. Some of these are rather tricky for their size, but all of them are solvable entirely logically.

Below is a contents page, giving the page numbers of each puzzle, which lists the main constraints in each puzzle. To avoid having to repeat them each time, disambiguators are not listed (kropki, XV, inequalities) - most puzzles need at least one of these to be unique, due to the nature of octoquadris. The rules for these are included in links.

## **Table of Contents**

<b>Garden Path</b> - Thermo, Quadruple, Killer.....	4
<b>Grill</b> - Region Sum Lines.....	5
<b>Mortar and Pestle</b> - Global Entropy, Thermo.....	6
<b>Island Fortress</b> - Entropic line, Fortress, variant whisper.....	7
<b>Radar</b> - Region Sum Line, German Whisper, Renban.....	8
<b>Courtyard</b> - Killer, Renban.....	9
<b>Slanted</b> - Thermo, Renban, Killer.....	10
<b>Feeling a Little Purple</b> - Little Killers, Renban.....	11
<b>Lake</b> - Region Sum Line, Killer.....	11
<b>Pencil</b> - Same Difference Line, German Whisper, Renban, Thermo.....	12
<b>DNA</b> - Thermometer, Region sum line, German whisper, Renban.....	13
<b>Nibble</b> - Variant Sandwich.....	14
<b>Radio</b> - German Whisper, Arrow.....	15
<b>Window Pane</b> - Dutch Whisper, Killer.....	16
<b>Viewport</b> - Littler Killer, Renban, Thermometer.....	18
<b>Mutation</b> - Thermometer, Renban, Dutch Whisper, Region Sum Line.....	19

## **Garden Path**

*Thermometer, Quadruple, Killer*  
*Easy*

### **Rules:**

Quadrupler - Digits in a circle must appear in one of the 4 surrounding cells.

Killer - Digits in a cage sum to the number in the top left corner.

Thermometer - Digits along a thermo increase from the bulb end.

<https://sudokupad.app/gbxatih4kj>

## **Grill**

*Region Sum Lines*

*Easy*

### **Rules:**

Region Sum Lines - Digits on a blue sum sum to the same value in each region the line passes through. If a line re-enters a region, both sections are counted separately.

<https://sudokupad.app/yjub22only>

## **Mortar and Pestle**

*Thermometers, Global Entropy*

*Easy*

### **Rules:**

Global entropy - Global Entropy: Every 2x2 square (not necessarily region) must contain 1 low digit (1,2,3), 1 medium digit (4,5,6) and 1 high digit (7,8,9).

Thermometers - digits along a thermo increase from the bulb end.

<https://sudokupad.app/4i75w5rl2i>

## **Island Fortress**

*Entropic line, Fortress, variant whisper*

*Easy*

There are two versions of this puzzle. The first listed is slightly easier, but both are fairly easy compared to the pack as a whole.

### **Rules:**

Variant whisper - Adjacent digits on a yellow line differ by at least 3.

Entropic line - Every set of three digits along a peach line must contain 1 high digit (789), 1 mid digit (456), and 1 low digit (123).

Fortress - A digit on a grey cell must be larger than all orthogonally adjacent cells.

V1: <https://sudokupad.app/qlrgdxlv0z>

V2: <https://sudokupad.app/eqv0uciy09>

## **Radar**

*Region Sum Line, German Whisper, Renban*  
*Medium*

### **Rules:**

German Whisper - Adjacent digits on a green line differ by at least 5.

Region Sum Line - Digits on a blue line sum to the same value in each region the line passes through.

Renban - Digits on a purple line form a set of non-repeating consecutive digits.

<https://sudokupad.app/8xrq1s8vq6>

## **Courtyard**

*Killer, Renban*

*Medium*

### **Rules:**

Killer - Digits in a cage do not repeat and sum to the number in the top left corner, if given.

Renban - Digits on a purple line form a non-repeating set of consecutive digits. (The two different purples are to indicate that the lines cross)

<https://sudokupad.app/an1ah91bki>

## **Slanted**

*Thermometer, Renban, Killer*  
*Medium*

### **Rules:**

Renban - Digits on a purple line form a set of non-repeating consecutive digits.

Thermometer - Digits along a thermo increase from the bulb end.

Killer - Digits in a cage do not repeat and sum to the total given.

<https://sudokupad.app/bwdq01l85h>

## **Feeling a Little Purple**

*Little Killers, Renban*

*Medium*

### **Rules:**

Little Killer - Digits along an indicated diagonal sum to the total given.

Renban - Digits on a purple line form a non-repeating set of consecutive digits.

<https://sudokupad.app/2n9vjn1vzh>

Region Sum Line, Killer  
Medium

Region Sum Line - Digits on a blue sum sum to the same value in each region the line passes through.

<https://sudokupad.app/vgg2bjrs97>

**Pencil**

Same Difference Line, German Whisper, Renban, Thermometer Medium

### Rules:

Same Difference line: Each pair of adjacent digits on the turquoise line has the same difference.

German Whisper - Adjacent digits on a green line differ by at least 5

Renban - Digits on a purple line form a non-repeating set of consecutive digits.

Thermometer - Digits along a thermometer increase from the bulb end.

<https://sudokupad.app/u48dppzsas>

## DNA

*Thermometer, Region sum line, German whisper, Renban*  
*Medium*

### **Rules:**

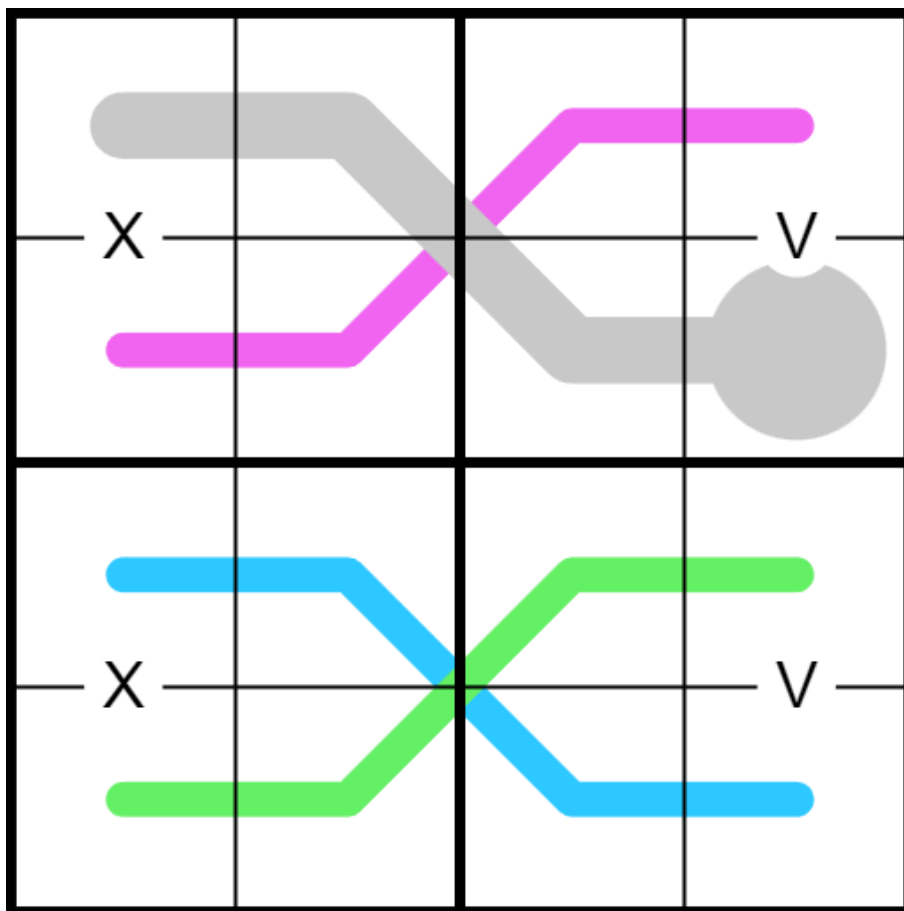

Renban - Digits along a purple line form a set of non-repeating consecutive digits.

Thermometer - Digits along a thermo increase from the bulb end.

German Whisper - Adjacent digits on a green line differ by at least 5.

Region Sum Line - Digits on a blue line sum to the same value in each region it passes through.

<https://sudokupad.app/ghhpieubx>

## **Nibble**

*Variant Sandwich*

*Hard*

### **Rules:**

Variant Sandwich - Clues outside the grid give the sum of digits between the smallest and largest digits in that row/column.

?s represent a number from 1-9.

<https://sudokupad.app/7soawopecx>

	14	?		7
4				
?				
8				
4				

## **Radio**

*German Whisper, Arrow*

*Hard*

### **Rules:**

German Whisper - Adjacent digits on a green line differ by at least 5.

Arrow - Digits along an arrow sum to the digit in the circle.

<https://sudokupad.app/4eghu04xot>

*Dutch Whisper, Killer  
Hard*

Dutch whisper - Adjacent digits along an orange line differ by at least 4.  
Killer - Digits in a cage do not repeat and sum to the total given.

## **Viewport**

*Little Killer, Renban, Thermometer*  
*Hard*

### **Rules:**

Renban - Digits on a purple line form a non-repeating set of consecutive digits.

Thermometer - Digits along a thermometer increase from the blub end.

Little Killer - Digits along an indicated diagonal sum to the total given.

<https://sudokupad.app/9i8baag3ya>

## **Mutation**

*Thermometer, Renban, Dutch Whisper, Region Sum Line*  
*Hard*

### **Rules:**

Thermometer - Digits along a thermo increase from the bulb end.

Renban - Digits along a purple line form a set of non-repeating consecutive digits.

Dutch Whisper - Adjacent digits on an orange line differ by at least 4.

Region Sum Line - Digits on a blue line sum to the same value in each region it passes through.
